The Illustrated Guide to Chickens covers the 100 most familiar breeds of chickens in Europe and North America. The breed profiles are written in engaging text that covers the history of each breed, its main characteristics, and information about looking after them. Each breed has been illustrated with delightful paintings by the author. Introductory sections contain practical advice about poultry-rearing and husbandry, and outline the differences between breeds, including the pros and cons between pure breeds, hybrids, bantams, game fowl, etc., and layers or table. The foreword has been written by HRH the Prince of Wales.

Solution-focused therapy is an evidenced-based practice that focuses on creating conversations that build solutions, rather than solve problems. *Learning Solution-Focused Therapy: An Illustrated Guide* teaches readers how to practice and become competent in conducting solution-focused therapy, an area of growing interest as the emphasis on brief therapy increases. Critical to the book's learning strategy is the generous use of case illustrations that are detailed, rich, and instructive without being overly didactic. The case approach provides an effective means for seeing concepts put into practice, and since medicine is becoming more patient-focused, the solution-focused therapy model is highly relevant. Organized to show how a solution-focused interview is conducted, the book presents the basic model and goes on to apply this model in psychopharmacology, addiction, supervision and consultation. Each chapter combines readings, solution-focused questions, case illustrations, learning exercises and video demonstrations (available online), which together constitute a comprehensive course in this therapeutic modality. Moreover, the author's conversational writing style makes the tenets and techniques accessible and interesting to a wide variety of clinicians. *Learning Solution-Focused Therapy: An Illustrated Guide* will appeal to clinicians who wish to enhance their skills and support their patients' growth in a positive way.
