The distinguished Hungarian author Frigyes Karinthy was sitting in a Budapest café, wondering whether to write a long-planned monograph on modern man or a new play, when he was disturbed by the roaring—so loud as to drown out all other noises—of a passing train. Soon it was gone, only to be succeeded by another. And another. Strange, Karinthy thought, it had been years since Budapest had streetcars. Only then did he realize he was suffering from an auditory hallucination of extraordinary intensity. What in fact Karinthy was suffering from was a brain tumor, not cancerous but hardly benign, though it was only much later—after spells of giddiness, fainting fits, friends remarking that his handwriting had altered, and books going blank before his eyes—that he consulted a doctor and embarked on a series of examinations that would lead to brain surgery. Karinthy's description of his descent into illness and his observations of his symptoms, thoughts, and feelings, as well as of his friends' and doctors' varied responses to his predicament, are exact and engrossing and entirely free of self-pity. A Journey Round My Skull is not only an extraordinary piece of medical testimony, but a powerful work of literature—one that dances brilliantly on the edge of extinction.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.
