Business combinations and consolidation. Business combinations are returning to the agenda of the International Accounting Standards Board (the Board), with the forthcoming publication of a discussion paper on business combinations under common control and a consultation on accounting for goodwill. Our materials provide analysis on the current discussions, as well as guidance on the Board ' s consolidation suite of standards covering accounting for investments in subsidiaries, associates ...

Business combinations - KPMG Global

Accounting for asset acquisitions follows a cost accumulation model, rather than the fair value model that applies to business combinations. As entities adopt the new definition of a business, we expect more transactions to qualify as asset acquisitions. ASC 805-50 provides only limited guidance, so entities need to consider other sources, such as:

Handbook: Asset acquisitions - KPMG

For a transaction or event to be a business combination, the activities and assets over which the acquirer has obtained control is required to constitute a business. IFRS 3 requires acquisition accounting to be applied to all business combinations in its scope.
