This text describes the functions that the BIOS controls and how these relate to the hardware in a PC. It covers the CMOS and chipset set-up options found in most common modern BIOSs. It also features tables listing error codes needed to troubleshoot problems caused by the BIOS.

This book constitutes the thoroughly refereed post-conference proceedings of the workshops held at the 37th International Symposium on Computer Architecture, ISCA 2010, in Saint-Malo, France, in June 2010. The 28 revised full papers presented were carefully reviewed and selected from the lectures given at 5 of these workshops. The papers address topics ranging from novel memory architectures to emerging application design and performance analysis and encompassed the following workshops: A4MMC, applications for multi- and many-cores; AMAS-BT, 3rd workshop on architectural and micro-architectural support for binary translation; EAMA, the 3rd Workshop for emerging applications and many-core architectures; WEED, 2nd Workshop on energy efficient design, as well as WIOSCA, the annual workshop on the interaction between operating systems and computer architecture.

This exciting collection of work introduces a major shift in debates on sexuality: a shift away from discourse, identity and signification, to a radical new conception of bodily materialism. Moving away from the established path known as queer theory, it suggests an alternative to Butler's matter/representation binary. It thus dares to ask how to think sexuality and sex outside the discursive and linguistic context that has come to dominate contemporary research in social sciences and humanities. Deleuze and Queer Theory is a provocative and often militant collection that explores a diverse range of themes including: the revisiting of the term 'queer'; a rethinking of the sex-gender distinction as being implied in Queer Theory; an exploration of queer temporalities; the non/re-reading of the homosexual body/desire and the becoming-queer of the Deleuze/Guattari philosophy. It will be essential reading for anyone interested not just in Deleuze's and Guattari's philosophy, but also in the fields of sexuality, gender and feminist theory.

This book is essential for audio power amplifier designers and engineers for one simple reason...it enables you as a professional to develop reliable, high-performance circuits. The Author Douglas Self covers the major issues of distortion and linearity, power supplies, overload, DC-protection and reactive loading. He also tackles unusual forms of compensation and distortion produced by capacitors and fuses. This completely updated fifth edition includes four NEW chapters including one on The XD Principle, invented by the author, and used by Cambridge Audio. Crosstalk, power amplifier input systems, and microcontrollers in amplifiers are also now discussed in this fifth edition, making this book a must-have for audio power amplifier professionals and audiophiles.

"Three women, three Doms. One extraordinary night. Welcome to Dark Haven, and may all of your darkest wishes come true..." MET HER MATCH (A HAWKEYE STORY) by Sierra Cartwright Highly trained Mira Araceli can hold her own in the toughest parts of the world, but not, it seems, against her secret crush, Torin Carter. She'd fallen for her Hawkeye instructor years before, and to him, she'd been just another recruit; fresh, green, idealistic. Torin, with his dark Irish good looks and fierce temper, doesn't want a partner, any partner, and especially not Mira. But assignments are assignments, and he takes his responsibilities seriously. So when the beautifully submissive Mira crawls into his bedroom, a leather belt between her teeth, he calls on all his resolve to send her away. Unsatisfied, Mira ups the stakes and finds another dom to play with at Dark Haven. Beyond furious, Torin storms into Master Xavier's club and claims his rights to dominate Mira. For the first time in her life, she's met her match. EDUCATING EVANGELINE by Belinda McBride "This isn't what she came here for!" Pursued by a group of mysterious hunters, Evangeline Jones was desperate for sanctuary when she ducked into the doorway of Dark Haven. Instead of safety, she discovers a decadent, sensual world that challenges her very outlook on life. Harte Sommers is charmed by the little wolf with the pink streak in her ebony hair. As alpha of the Napa pack, he sometimes feels that he's alone at the top. When he meets Eva, he knows he might not be able to keep his wild little wolf at his side, but his heart tells him that his lonely days might be at an end. SIMON SAYS: MINE by Cherise Sinclair With an empty nest and divorce in hand, Rona decides it's time to explore the fantasies that nourished her through a long, tedious marriage to a man whose idea of outrageous sex was leaving the lights on. At the top of her fantasy list is touring Dark Haven, the BDSM club, but she isn't prepared for the effect of a powerful Dom. When Master Simon takes control and introduces her to toys and sensations she's never felt before, she realizes he could fulfil every fantasy on her list all by himself. But she's vowed to never get trapped in a relationship again. One of the most popular Doms in Dark Haven, Master Simon has had his fill of eager, shallow, young subs. Rona is older, intelligent, independent...and sweetly submissive. After an evening of intense pleasure and despite her obvious attraction, she refuses to see him again. He needs a way to change her mind. She's not the first sub he's taken on a journey of exploration, but he's beginning to think she might be the last. "Publisher's Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable: Anal play/intercourse, strong BDSM theme and elements to include exhibitionism and voyeurism."

Is there a place for personal beliefs in public life? Is a Catholic health minister in a fit position to legislate on women's issues such as the right to an abortion pill? When the prime minister invokes church leaders' support in going to war with Iraq - and those church leaders tacitly approve this - is there a moral issue at stake? In Acting on Conscience Jesuit priest, human rights lawyer and academic Frank Brennan tackles these issues head on. He explores some of the legal, moral and ethical issues that capture the public imagination - and critically examines the figures in public life who pass judgement on them. Issues covered include: The War in Iraq Same-sex marriage and parenting Late-term abortion Politics and the judiciary Through detailed analysis of examples from both Australia and the US, Brennan asks: Is there a place for personal beliefs in public life? As citizens and voters, how can we ensure that in the future, our leaders will speak for us - but not out of turn? In an age of fear and bigotry here is a welcome book of courage and conscience.'
