The video above shows how to change the fog light bulb in your 2007 Audi A3. Not all models have fog lights - for many Audis, it depends on your trim level (Base) or whether the fog light option was ordered when your A3 was manufactured. Fog lights are typically in the front bumper, below the headlight cluster and are helpful in poor visibility.

All the 387 unit does is monitor bulb power consumption. Once it detects a bulb outage, it sends a signal to the instrument cluster to bring up the warning symbol and bong. All my mod does is cuts the signal from getting to the instrument cluster and gives it an "all OK" signal instead. So yes, it does disable the entire bulb warning system.
