This Bear Grylls survival tip is a little nicer than the previous one, at least until you remember that eating the wrong thing in a survival situation could well get you killed. The general rule of thumb for survival food is that unless you 're 100 percent certain that it 's edible, don 't eat it. Do your research before you go – for example, Bear notes that every jungle in the world has palm nuts, an excellent source of calories an carbohydrates containing 81 calories and 15 grams of ...
