Big bikes, big intentions, big state, Big Bend National Park you see the thread. The parameters of the test were simple: Street-styled cruisers with a V-twin engine displacement of at least 1700cc....

The Big V-Twins Test | Motorcyclist

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Read Book Big Bore V Twin Engines

Discover the best of the Harley-Davidson Archive Collection. Portrait-quality photography reveals the remarkable journey of America's motorcycle company, from its humble beginnings to its nearly century-long dominance of an entire industry.

A special anniversary... The motorcycle that every easy rider craves... A book so popular it's in reprint even before it's released. This is sure to zoom out of stores! Happy 100th birthday, Harley Davidson! Celebrate a century of the most exciting motorcycles ever made in 448 exciting, thrill-inducing pages of color photographs. With images of every Harley ever produced and sold, and complete specs on each one, this beautiful, oversized volume will rev cycle lovers' motors on high. Beginning with the first model made in 1903 (which zipped along at a grand 25 miles per hour), there's information on the motorcycle's designation, engine, bore & stroke, displacement, torque, Bhp, and top speed. In sparkling images, see 1907's Silent Gray Fellow, with its bicycle-like frame; move on to the post-war Hydra Glide, aimed at a totally new market; the Dyna Glide, born in 1947 and existing in all its shiny glory till 1996; the Evo Sportster, offered in two engine sizes; and right up to today's sleek, fast cycles. There are also brochure covers, countless close-ups of smaller details, and a wealth of other fascinating facts.

Many people modify their Harley-Davidson engines—and find the results disappointing. What they might not know—and what this book teaches—is that emphasizing horsepower over torque, the usual approach, makes for a difficult ride. Author Bill Rook has spent decades perfecting the art of building torque-monster V-twin Harley engines. Here he brings that experience to bear, guiding motorcycle enthusiasts through the modifications that make a bike not just fast but comfortable to ride. With clear, step-by-step instructions, his book shows readers how to get high performance out of their Harleys—and enjoy them, too.

For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to.

Read Book Big Bore V Twin Engines

Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

An illustrated guide to the history of motorcycle design that profiles bikes from around the world, describes technical and stylistic innovations, and includes photographs.

American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN.
