These worksheets are tailored to the current textbook: Biology by Miller and Levine (commonly called the Dragonfly book) Most are specifically targeted to chapter sections – as in, students read the section of the chapter and answer very straightforward questions as they read. I originally designed the reading guides to encourage freshman students to read the chapters.

~~Biology Principles And Explorations Directed Reading ...~~

To assess students' understanding of concepts at the end of instruction, Biology: Principles & Explorations provides a test for each chapter and includes a generic Portfolio Assessment suggestion—to have students construct a concept map from each chapter (p. 49T). These options in chapters 4, 5, and 16, the chapters that treat the key ideas of matter and energy transformations most extensively, were examined for the first two criteria.
