and each of their engines
contains a governor. This is
designed to act as "engine
cruise control." But if it's
poorly adjusted or worn out,
it can be a real problem.
There's a simple way to
adjust a governor so it
works better.

Stratton Governor | Hunker
Briggs and Stratton has 6 different quality standards in their engines. The most durable is the Vanguard and is used for commercial applications. At the bottom of the scale is the IC. In between the two is the Intec which is a high end "consumer" engine. Two steps below that is the ELS which is the lower end consumer engine.

Before you are able to change the lawn mower oil on your Briggs & Stratton small engine, it's important to understand the oil type and capacity required. The type of mower you use, the engine within, and the temperature outside determines what type of oil to use, how much you need and the cost of the oil.
