By taking advantage of this golden window of opportunity--when millions of new brain cells are formed every single day--you can help support your child's IQ, language development, memory, attention span, and emotional regulation. Importantly, the same strategies that nurture these cognitive abilities can also help reduce the odds of autism and ADHD, conditions that now impact 1 in 10 children. Brain Health from Birth is your guide to this new scientific frontier, explaining which key nutrients may

Created by the expert hosts of the popular *Well-Fed Women* Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to

better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet

books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, *Coconuts and Kettlebells* provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose

In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness
