The first step in installing the 545T Nite-Lite is to determine the polarity of the vehicle's parking light and headlight cir-cuits. In most vehicles, both the parking lights and the headlights will be either positive or negative. However, there are some vehicles that use (+)12V to activate one circuit and (-) ground to activate the other circuit.

545T Nite-Lite

Directechs.com. Directed is consistently rated for having the industry's best online tech support. Clearly this is a long-time priority for Directed, which believes in a multi-faceted support structure for the thousands of installers at our authorized retailers.
