Los autores exponen la matriz de intereses que dominan la Argentina y que conocemos como lobby: la Iglesia, los sindicatos, las corporaciones empresarial y financiera, la política y el poder judicial. Esta red imperceptible no se arma en la oscuridad ni en reuniones exóticas. Se trata de relaciones. ¿Qué es el poder? ¿Cuál es su naturaleza en la Argentina del siglo XXI? ¿Mediante qué mecanismos se construye? ¿Cómo lo acumulan y conservan las corporaciones? ¿Cómo controlan los daños? ¿Qué camino recorren los que mandan? ¿Qué dotes hay que poseer para ser el líder? ¿Cómo equilibran la relación/tensión interna y las negociaciones con otros actores? ¿Qué cambia en las formas de relacionarse -nunca en el fondo- con el paso de un gobierno conformado por políticos a otro compuesto por ejecutivos? ¿Cómo interpelan al resto de la sociedad para que un interés particular aspire a convertirse en el de todos? Empresarios que invierten en el momento adecuado para los tiempos políticos. Obras públicas cartelizadas. Banqueros-instrumento para las fortunas que desaparecen tras la bruma off shore. Banqueros que reclaman seguridad jurídica. Un juez que duerme un expediente. Fiscales que hacen caso omiso de pruebas que perjudican a X y realzan otras que afectan a Y. La familia judicial y los padrinos. Holdings de medios de comunicación que demonizan a funcionarios de cualquiera de los tres poderes o ponderan negocios que nadie vio pero ya tienen dueño. Familiares desperdigados por toda la estructura estatal. Los ejecutivos y la puerta giratoria. Políticos que gruñen en público, pero en privado se someten virtuosamente. Teléfonos pinchados y el espionaje punteril. Un sacerdote que adoctrina desde el púlpito ante la devota mirada de los fieles. Un papa que dispara mensajes, a priori universales, pero que están teledirigidos. Un sindicalista que pega con la izquierda y acumula y recauda con la derecha. El Senado spa y el balneario municipal de Diputados.

The goal of this collective monograph is to explore the relationship between the cognitive notion of number and various grammatical devices expressing this concept in natural language with a special focus on Slavic. The book aims at investigating different morphosyntactic and semantic categories including plurality and number-marking, individuation and countability, cumulativity, distributivity and collectivity, numerals, numeral modifiers and classifiers, as well as other quantifiers. It gathers 19 contributions tackling the main themes from different theoretical and methodological perspectives in order to contribute to our understanding of cross-linguistic patterns both in Slavic and non-Slavic languages.

Based on interviews with forty-one teenagers, Lightfoot argues that adolescent risk-taking is necessary in establishing a sense of self and peer group identities

Over the past twenty years, thousands of physicians have come to depend on Yamada's Textbook of Gastroenterology. Its encyclopaedic discussion of the basic science underlying gastrointestinal and liver diseases as well as the many diagnostic and therapeutic modalities available to the patients who suffer from them was—and still is—beyond compare. This new edition provides the latest information on current and projected uses of major technologies in the field and a new section on diseases of the liver. Plus, it comes with a fully searchable CD ROM of the entire content.
