The University Grants Commission of India is a statutory body set up by the Government of India in accordance to the UGC Act 1956 under Ministry of Human Resource Development, and is charged with coordination, determination and maintenance of standard of higher education. The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor and / or Junior Research Fellowship (JRF) award in Indian universities and colleges. This national level entrance exam is conducted twice every year in the month of June and December. Management Post- Graduates usually opt the UGC NET Management subject to pursue their career either as junior research fellows or professors or both. National Testing Agency (NTA) will conduct UGC NET exam for Assistant Professor and for junior research fellowship. The UGC NET test will consist of two papers, paper 1 and 2. Paper 1 remains common for all subjects and consists of questions from research, teaching & General Aptitude on the other hand paper 2 will consist of questions from only Management subjects.

For those who seeks a career in Research/ Lectureship in English Literature from the foremost reputed colleges and Universities of the country, UGC NET English may fullfil you dreams. UGC NET comprises of two papers- Paper 1 and Paper 2. UGC NET Paper 1 syllabus tests teaching and reasoning ability, research aptitude, comprehension, out-of-the-box thinking and general awareness of the candidate. A teacher is a person who not only teaches but also guides his/her student in building a successful career. The future of a nation lies upon the level of knowledge the people in the country are having. Thus, the responsibility of a teacher goes far beyond what we think of it at an individual level. We have seen people are interested in making their career in many other professions but teaching as a profession is not the first choice in most cases. Nevertheless, teaching is one of the most interesting professions as it involves a continuous learning exercise and at the same time making others learned by delivering the knowledge one is having. The teachers assess their students but at first, they also get assessed under UGC NET conducted by the National Testing Agency. The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor and/or Junior Research Fellowship (JRF) award in Indian universities and colleges. UGC NET is considered as one of the toughest exams in India, with success ratio of merely 6%. Previously, the passing ratio was around 3% - 4%. Assistant Professors in private colleges may or may not be NET qualified but NET qualification is mandatory for universities & government colleges.

The economy of a country forms the basis of the standard of living of its citizens. Economics requires deep study of demand, supply, fluctuations and the behaviour of money. But how does it work? This cannot be understood by people who do not have the right knowledge in the discipline. But economists are the intellectuals who can actually study, analyze and help in stabilizing the economy of the country. In order to make sure that those who form the framework of the country are best of all, hence, they should be taught by the best teachers. The making of such teachers is a rather difficult process and is followed by various stages of testing. National Testing Agency (NTA) conducts the entry-level examination for scholars who wish to pursue Economics as their subject. With us, at EduGorilla you will be aided with numerous UGC NET Economics practice tests 2020.

The remarkable way in which young children acquire language has long fascinated linguists and developmental psychologists alike. Language is a skill that we have essentially mastered by the age of three, and with incredible ease and speed, despite the complexity of the task. This accessible textbook introduces the field of child language acquisition,

exploring language development from birth. Setting out the key theoretical debates, it considers questions such as what characteristics of the human mind make it possible to acquire language; how far acquisition is biologically programmed and how far it is influenced by our environment; what makes second language learning (in adulthood) different from first language acquisition; and whether the specific stages in language development are universal across languages. Clear and comprehensive, it is set to become a key text for all courses in child language acquisition, within linguistics, developmental psychology and cognitive science.

'This is a highly recommendable book. It elegantly introduces generative grammar as an empirical science. Written in a clear and friendly tone, it is extremely readable and makes complicated linguistic theory accessible to students' - Ken Ramshøj Christensen, Aarhus University, Denmark This clear and practical introduction to Syntactic Theory introduces students to theory building, hypothesis testing and evaluation through the framework of Chomsky's Government-Binding Theory. Initial chapters guide the student through essential topics such as X'-Theory, Transformations and elementary Binding Theory, progressing to cover more advanced issues such as Reconstruction, the light verb vP and control as movement. Presenting the core linguistic theory and problem solving skills that are essential to the subject, this updated and revised second edition features: □ New material on the Minimalist Program and Government-Binding Theory □ Expanded chapters on Phrase Structure and Functional Categories □ A wealth of new tree diagrams as well as revised end-of-chapter exercises The liberal use of in-text exercises engage the reader at every stage of theory-development, while an 'Open Issue' at the end of each chapter encourages active participation and further exploration of the chapter's topic. With an engaging, informal style, Syntactic Theory makes the most difficult topics accessible to a wide range of students.
