An investigative journalist, Schlosser rose to prominence with the publication of his book "Fast Food Nation: The Dark Side of the All-American Diet". The book looked at questionable practices in the fast food industry. Richard Linklater adapted it into the 2006 movie Fast Food Nation (2006). Schlosser followed it up with "Chew on This: Everything You Don't Want to Know about Fast Food" (a further look at the fast food industry's practices).

New York Times Bestseller: The shadowy world of "off the books" businesses—from marijuana to migrant workers—brought to life by the author of Fast Food Nation. America's black market is much larger than we realize, and it affects us all deeply, whether or not we smoke pot, rent a risqué video, or pay our kids' nannies in cash. turns his exacting eye to the underbelly of American capitalism and its far-reaching influence on our society. Exposing three American mainstays—pot, porn, and illegal immigrants—Schlosser shows how the black market has burgeoned over the past several decades. He also draws compelling parallels between underground and overground: how tycoons and gangsters rise and fall, how new technology shapes a market, how government intervention can reinvigorate black markets as well as mainstream ones, and how big business learns—and profits—from the underground. “Captivating . . . Compelling tales of crime and punishment as well as an illuminating glimpse at the inner workings of the underground economy. The book revolves around two figures: Mark Young of Indiana, who was sentenced to life in prison without parole for his relatively minor role in a marijuana deal; and Reuben Sturman, an enigmatic Ohio man who built and controlled a formidable pornography distribution empire before finally being convicted of tax evasion. . . . Schlosser unravels an American society that has ‘become alienated and at odds with itself.’ Like Fast Food Nation, this is an eye-opening book, offering the same high level of reporting and research.” —Publishers Weekly

Kids love fast food. And the fast food industry definitely loves kids. It couldn't survive without them. Did you know that the biggest toy company in the world is McDonald's? It's true. In fact, one out of every three toys given to a child in the United States each year is from a fast food restaurant. Not only has fast food reached into the toy industry, it's moving into our schools. One out of every five public schools in the United States now serves brand name fast food. But do kids know what they're eating? Where do fast food hamburgers come from? And what makes those fries taste so good? When Eric Schlosser's best-selling book, *Fast Food Nation*, was published for adults in 2001, many called for his groundbreaking insight to be shared with young people. Now Schlosser, along with co-writer Charles Wilson, has investigated the subject further, uncovering new facts children need to know. In *Chew On This*, they share with kids the fascinating and sometimes frightening truth about what lurks between those sesame seed buns, what a chicken 'nugget' really is, and how the fast food industry has been feeding off children for generations.

frequently surprising pop history of American fast food will thrill and educate food lovers of all speeds." —Publishers Weekly Most any honest person can own up to harboring at least one fast-food guilty pleasure. In *Drive-Thru Dreams*, Adam Chandler explores the inseparable link between fast food and American life for the past century. The dark underbelly of the industry's largest players has long been scrutinized and gutted, characterized as impersonal, greedy, corporate, and worse. But, in unexpected ways, fast food is also deeply personal and emblematic of a larger than life image of America. With wit and nuance, Chandler reveals the complexities of this industry through heartfelt anecdotes and fascinating trivia as well as interviews with fans, executives, and workers. He traces the industry from its roots in Wichita, where White Castle became the first fast food chain in 1921 and successfully branded the hamburger as the official all-American meal, to a teenager's 2017 plea for a year's supply of Wendy's chicken nuggets, which united the internet to generate the most viral tweet of all time. *Drive-Thru Dreams* by Adam Chandler tells an intimate and contemporary story of America—its humble beginning, its innovations and failures, its international charisma, and its regional identities—through its beloved roadside fare.

This piece on the terrifying true cost of cheap meat shows why Schlosser has been instrumental in changing our attitudes to what we eat.

In the tradition of *Fast Food Nation* and *The Omnivore's Dilemma*, an extraordinary investigation into the human lives at the heart of the American grocery store What does it take to run the American supermarket? Did you know that: More than 80% of the foods you eat in restaurants and buy at supermarkets contain genetically engineered ingredients, and that these ingredients have been linked to toxic and allergic reactions in people; sickness, sterility, and fatalities in livestock; and damage to virtually every organ studied in lab animals? If you don't count French fries, ketchup or pizza as vegetables, more than half of Americans eat no vegetables at all? Cows raised for meat are impacting our climate more than cars? It's possible to be a positive food revolutionary without sounding like a self-righteous nag? Join John and Ocean Robbins for 21 intimate, game-changing conversations with some of the world's leading "food revolutionaries": scientists, doctors, teachers, farmers, economists, activists, and nutritionists working on food issues today.
