major motion pictures. A new Primo-Lens Data section provides previously unpublished optical information, including entrance pupil position, which is of special interest to those shooting special effects and film for digital postproduction. This edition also includes new depth-of-field tables for all Panavision Primo-L prime and zoom lenses, as well as subject size/camera distance information for all 35mm film formats. The text is divided into special sections that highlight the relevance of the equipment to all who use it, including film producers, film directors, directors of photography, camera operators, and camera assistants. Additionally, there are special sections for the sound recordist and production manager, as well as an extensive discussion of Panaflex and
