ABOUT THE TEST The Advanced Placement Chemistry Examination is offered each May at participating schools and multi-school centers throughout the world. The Advanced Placement Program

Study Guide Answers
is designed to allow high school students to pursue college-level studies while attending high school. The participating colleges, in turn, grant credit and/or advanced placement to students who do well on the

the test covers a broad range of topics, no student is expected to answer all of the questions correctly. The exam is divided into two sections: 1) Multiple-choice: Composed of 75 multiple-choice questions

You can bring an electronic hand-held calculator for use on the 40-minute free-response section. Essay and chemical-reaction questions comprise the last 50 minutes of the test, during which

determine when and where
your study time will be most
effective. Be consistent and
use your time wisely. Work
out a study routine and
stick to it! When you take
the practice tests, try to

general weaknesses in
particular sections. You
should carefully study the
reviews that cover your
areas of difficulty, as this
will build your skills in
those areas. TEST TAKING

Acces PDF High School Chemistry Final Exam

TIPS Although you may be unfamiliar with standardized tests such as the SAT II: Chemistry Subject Test, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking

anxieties. Become
comfortable with the format
of the exam. When you are
practicing to take the SAT
II: Chemistry Subject Test,
simulate the conditions
under which you will be
taking the actual test. Stay

calm and pace yourself.

After simulating the test only a couple of times, you will boost your chances of doing well, and you will be able to sit down for the actual exam with much more confidence. Know the

directions and format for
each section of the test.
Familiarizing yourself with
the directions and format of
the exam will not only save
you time, but will also
ensure that you are familiar
enough with the SAT II:

completely, and neatly. You
can change your answer, but
remember to completely erase
your old answer. Any stray

may cause the machine to

incorrectly. When you have finished working on a section, you may want to go back and check to make sure your answers correspond to the correct questions.

Marking one answer in the wrong space will throw off

the rest of your test,
whether it is graded by
machine or by hand. You
don't have to answer every
question. You are not
penalized if you do not

answering a question incorrectly. Try to use the guessing strategy, but if you are truly stumped by a question, remember that you do not have to answer it. Work quickly and steadily. You have a limited amount of
