IEEE citation style is used primarily for electronics, engineering, telecommunications, computer science, and information technology reports. The three main parts of a reference are as follows:

- Author ' s name listed as first initial of first name, then full last.
- Title of article, patent, conference paper, etc., in quotation marks.

IEEE Overview // Purdue Writing Lab

The IEEE citation format is based on the Chicago Manual of Style and it is commonly used to cite and format technical papers. Other than citation and paper formatting style, IEEE has also introduced a manual or editorial guide that guides the authors and editors to format their letters, journals, and papers for IEEE publications.

IEEE Citation and Format - Guide with Examples

IEEE Citation Style Guide Any citation style is set up to give the reader immediate information about sources cited in the text. In IEEE citations, the references should be numbered and appear in the order they appear in the text. When referring to a reference in the text of the document, put the number of the reference in square brackets.

IEEE Citation Style Guide - IJSSST

Reference numbers are set flush left and form a column of their own, hanging out beyond the body of the reference. The reference numbers are on the line, enclosed in square brackets. In all references, the given name of the author or editor is abbreviated to the initial only and precedes the last name. Use commas around Jr., Sr., and III in names. IEEE
