Veteran journalist and four-wheel drive historian Jim Allen and recognized collector and Scout expert John Glancy built the most in-depth book about Scout trucks on the market. The book includes details about all your favorite Scout models from the very first to the last one to leave the factory and some the public never saw.

International Harvester Trucks: The Complete History tells the complete story of the light, medium, and heavy-duty trucks, vans, and station wagons built by International Harvester during over a century of production.

A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games.

Second edition. Fred Crismon's timeless classic. A photographic history of International Trucks from 1902-2002. Approximately 2500 b/w photos. Considered by many to be the most authoritative work ever done on International Trucks.

In 1953 International Harvester added a proto-SUV to their lineup: the Travelall. Several years later, someone at IH decided it was time for something different. Without any production definition to use as a guide, head designer Ted Ormas was told "design something to replace the horse". The result was the famous Scout 80. Making its debut in late 1960, the Scout set the stage for 4-wheel drive utility vehicles of the '70s, '80s, and '90s, and today enjoys cult-status among automotive and truck enthusiasts. Michael Banks documents the success story from the 1950s Travelall to the Scout 80, 800, 810, and Scout II versions, also covers variations like the Terra and Spirit.

Tractor Mac: Worth the Wait stars the lovable pigs, Pete and Paul, as they learn the importance of patience when they try (unsuccessfully) to speed along the growth of Farmer Bill's prize watermelons.
