Jabiru 2200 Engine For Sale

The Jabiru 2200cc Aircraft Engine is a 4-cylinder 4-stroke horizontally opposed air cooled engine. At 60kg installed weight it is the lightest 4-cylinder 4-stroke aircraft engine of this output manufactured in the world. It can be installed in an aircraft at the same weight as most popular 2-stroke engines. Overall dimensions are extremely small.

lovtoofly - Profile - Jabiru Forum

We really wanted a used Kitfox that already had a Jabiru 2200 installed. Since I could not find any positive long term reports, I posted in the Jabiru forum if anybody ever made to to TBO without significant repairs other than the scheduled maintenance, including the mandatory top overhaul at 1,000 hours.

## Spare Parts - Jabiru

Jabiru Engines Jabiru engines have been flying for over two decades in certificated, experimental and light-sport aircraft all over the world. The early 65-80 hp models were designed specifically for the first Jabiru aircraft, the LSA 55/2K. With the success of the first four-cylinder 65-hp engine, it became an obvious choice for other aircraft ...
