This book is about my personal experience during the January 12, 2010, earthquake in Haiti. On January 10, 2010, I traveled from Rhode Island through Boston Logan Airport and through Miami, Florida, and then Haiti. For two consecutive days, I was assigned to preach in the Church of God at Rue Du Centre, Port-au-Prince. Earlier on January 12, I was invited to speak at the same church in the early morning prayer service at 6:00 a.m. I was accompanied by my friend Bishop Habel Cesar Novas, a United States of America army veteran of Dominican background who travels with me on many occasions. I was asked to return the same day at 10:00 a.m., and that service ended at 12:10 p.m.

The book is an exposé on Deuteronomy 8:18 and related passages throughout the Bible - a how-to manual on attaining wealth, strictly on biblical tenets. God's instructions to the ancient community of faith were that they should remember (Heb. zakar [to firstling, to first fruit or treat most worthy]) Him, since He is the One to give them the power to get wealth. The Hebrew word used for power (koch) in Deuteronomy 8:18 is the foundation of this revolutionary concept. It is fascinating. According to Brown, Driver and Briggs Hebrew and English Lexicon, the word koch carries approximately eight nuances: (i) power conferred by God to enhance ability, (ii) power as in creation, (iii) power as in prophetic power, (iv) power as in the acts of deliverance, (v) power associated with wisdom, (vi) power associated with His works, (vii) power associated with God's rule over His creation, and (viii) power as of the soil. Thus the power (or access) that God gives us to get wealth is many-faceted, comprising of a wide variety of ways to enhance or empower the growth and development of the seeds we invest in the Kingdom of God. Explore them in one of the most complete, well-balanced and practical discourses on biblical wealth ever published. You will also discover the real secret behind Jabez's abundant harvest, and how to command your morning and shake off the wicked devourers of your finances. Kingdom wealth is our heritage as heirs of God and joint-heirs with Christ; get it.

This book is a companion volume to the well-known earlier work of the author, "Kingdom Wealth: The Power to Get It" (available from www.amazon.com, www.BarnesandNoble.com, www.trafford.com/07-2268 and other online sources). It is pragmatic and applicable to everyday living, especially appealing to those who consider themselves citizens of the Kingdom of God and radical enough to search for treasures under the biblical sands. In Isaiah 55:1, God the Father makes an ecstatic and passionate call to the thirsty, the desperate and the daring to come to His waters and buy without money. It is indeed an invitation to a business relationship, for the expression "waters", in this context, carries a commerce connotation, akin to the waterfront, the docks or port, the site of the most voluminous trade in any progressive economy. We are challenged to come and cast our bread on the waters and see it return in multiple dimensions within a few days (Ecclesiastes 11:1). This efficient and reliable Kingdom economic model is far superior to Wall Street's debt-based system or any other earth-based investment scheme; it is recession-proof, employing currencies much higher than money. Study this book and prove its immense value yourself. Get ready for true wealth.

In the early 1970s, living in inner-city St. Louis, Paul Gilk asked his friends to explain why small farms were dying. The answers did not satisfy. Years of study followed. Through the reading of history, Gilk began to grasp the origins of both horticulture and agriculture, their blossoming into Neolithic agrarian village culture, and the impoundment of the agrarian village by bandit aristocrats at the formation of what we now call civilization. Getting a grip on the relationship between agriculture and civilization was one thing; but, as a person strongly influenced by Gospel stories, Gilk also wanted to know what the connection might be between the kingdom of God proclamation in the canonical Gospels and the peasant world from which Jesus arose. Aided in his thinking by the works of biblical scholars Marcus Borg and John Dominic Crossan, Gilk began to realize that the kingdom of God was both a harkening back to the peace and freedom of precivilized agrarian village and a revolutionary anticipation of a postcivilized village-mindedness organized organically on the basis of radical servanthood and radical stewardship. We are, Gilk says, entering the dawn of this Green culture simultaneously with the deepening of civilized world disaster.

In this complete treasury of his best sermons on prayer, the world's most beloved Bible teacher--Dr. J. Vernon McGee--reveals the truth about communicating with God. An International Redistribution of Wealth and Power: A Study of the Charter of Economic Rights and Duties of States is an in-depth account and conscientious analysis of the efforts of developing countries to frame international rules that would bring about an equitable distribution of world power and resources. The Charter of Economic Rights and Duties of States is the principal outcome of this undertaking, approved by 120 member states of the United Nations in December 1974. The book aims to chronicle the developments in the forging of the Charter. The first two chapters cover the inception of the Charter stemming from the 1973 Arab oil boycott and the previous attempt in 1974 for the establishment of a New International Economic Order. The four central chapters describe in detail the articles of the Charter, their negotiation, and the origin and evolution of the issues they embody. The period covered in this book is from the end of World War I until the completion of the Conference on International Economic Cooperation in June 1977. Historians, researchers, economists, and students of international law will
