~~LEGO(R) Chain Reactions~~ is packed full of ideas, instructions, and inspiration for 10 LEGO machines that spin, swing, pivot, roll, lift, and drop. Each machine alone is awesome, but put them together and you get incredible chain reactions. Then, combine the machines in any order you like to create your own chain reactions.

About For Books *Lego Chain Reactions: Design and Build* ...

Make a Chain Reaction. What is a chain reaction? How many parts does it need to have? How do the parts work together? By gravity? Using a moving element? What type of chain reaction would you most like to see? How many steps would it have? How would it end? Make a chain reaction that works on its own or together with other classmates' inventions.
