Some secrets are dangerous. This Secret is deadly. For Secret McQueen, her life feels like the punch line for a terrible joke.

Abandoned at birth by her werewolf mother, hired as a teen by the vampire council of New York City to kill rogues, Secret is a

part of both worlds,
but belongs to neither.
At twenty-two, she
has carved out as
close to a normal life
as a bounty hunter
can. When an enemy
from her past returns
with her death on his
mind, she is forced to
call on every ounce of
her mixed heritage to
save herself-and
everyone else in the

city she calls home.

As if the fate of the world wasn't enough to deal with, there's Lucas Rain, King of the East Coast werewolves, who seems to believe he and Secret are fated to be together. Too bad Secret also feels a connection with Desmond, Lucas's second-in-command...

Warning: This book contains a sarcastic, kick-ass bounty hunter; a metaphysical love triangle with two sexy werewolves; a demanding vampire council; and a spicy seasoning of sex and violence.

are torn apart. When the war brings destruction and Emancipation, can these two women, made kin by slavery, free themselves of the past to truly become sisters?"--

The increasing globalization of pharmaceutical markets and

consolidation within the pharmaceutical industry have highlighted the challenges of rapidly evolving regulatory requirements and created a much greater appreciation of the need for regulatory awareness throughout the industry. This book
