In this fascinating volume, Nicholas O'Shaughnessy elucidates the phenomenon of the Nazi propaganda machine via the perspective of consumer marketing, conceptualising the Reich as a product campaign. Building on his acclaimed Selling Hitler (2016), he uses marketing scholarship to show how propaganda and political marketing existed not merely as an instrument of government in Nazi Germany, but as the very medium of government itself. Marketing the Third Reich explores the insidious connection between a mass culture and a political movement, and how the cultures of consumption and politics influence and infect each other – consumerised politics and politicised consumption. Ultimately its concern is with the 'engineering of consent' – the troubling matter of how public opinion can be manufactured, and governments elected, via sophisticated methodologies of persuasion developed in the consumer economy. Nazism functioned as a brand, packaging almost everything with persuasive purpose. Revealing obvious parallels between Adolf Hitler's use of the living theatre of politics, and our present public-political dramaturgy, between Nazi lies and our post-truth, the book raises the chilling question: was Hitler ahead of his time? This radical, original, in-depth study will be an invaluable resource for all scholars of marketing history, political marketing, propaganda and history.

This book reviews, updates and enhances the basic concepts surrounding the academic theory and practice of Integrated Marketing Communication (IMC). Since the introduction of IMC in the late 1980s, the concept has spread around the world. In that expansion, many authors have written about IMC; practitioners have adopted and adapted the concept to fit their own market situations. Further, dramatic changes have occurred in the technologies used in marketing communications which consumers have accepted and employed in their consumption of marketers' messages and incentives. Thus, there have been dramatic changes in how IMC was initially envisioned and how it has developed over time. This book identifies and discusses these changes, how they have occurred and what they mean going forward for all types of marketers around the world. Thus, IMC, and indeed integration of communications at all organisational levels is an essential in the 21st century organisations. This book was published as a special issue of the Journal of Marketing Communications.
