College Physics, Fourth presents a unique “forces first” approach to physics that builds a conceptual framework as motivation for the physical principles. That intuitive approach, combined with a consistent problem solving strategies, stunning art, extensive end-of-chapter material, and superior media support make Giambattista, Richardson, and Richardson a product that addresses the needs of TODAY’s students.

Physics 2nd edition is an alternate version of the College Physics 3rd edition text by Giambattista/Richardson/Richardson. The key difference is that Physics covers kinematics and forces in the more traditional organization of beginning with Kinematics and proceeding to forces. (College Physics takes an integrated approach to forces and kinematics, introducing forces and interweaving kinematics.)

University Physics with Modern Physics teaches students the fundamentals of physics through interesting, timely examples, a logical and consistent approach to problem solving, and an outstanding suite of online tools and exercises. University Physics with Modern Physics weaves exciting, contemporary physics throughout the text with coverage of the most recent research by the authors and others in areas such as energy, medicine, and the environment. These contemporary topics are explained in a way that your students will find real, interesting, and motivating. McGraw-Hill's Connect, is also available as an optional, add on item. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that class time is more effective. Connect allows the professor to assign homework, quizzes, and tests easily and automatically grades and records the scores of the student's work. Problems are randomized to prevent sharing of answers an may also have a "multi-step solution" which helps move the students' learning along if they experience difficulty.
