BMR - William E. Taylor Division | U.S. Naval Sea Cadet Corps

We would like to show you a description here but the site won't allow us.

In this volume, we examine the challenges and opportunities created by global migration at the start of the 21st century. Our focus extends beyond economic impact to questions of international law, human rights, and social and political incorporation. We examine immigrant outcomes and policy questions at the global, national, and local levels. Our primary purpose is to connect ethical, legal, and social science

scholarship from a variety of disciplines in order to raise questions and generate new insights regarding patterns of migration and the design of useful policy. While the book incorporates studies of the evolution of immigration law globally and over the very long term, as well as considerations of the magnitude and determinants of immigrant flows at the global level, it places particular emphasis on the growth of immigration to the United States in the 1990s and early 2000s and provides new insights on the complex relationships between federal and state politics and regulation, popular misconceptions about the economic and social impacts of immigration, and the status of 'undocumented' immigrants.

Twelve of Australia's leading scientists speak about their lives and their work. They convey the variety, excitement and accomplishment of science, explore its processes and reveal its challenges. Together their informal stories illuminate a remarkable landscape of science in Australia and shed fascinating light on the formative influences that have shaped these men and women towards a life in science.
