The book consists of 31 chapters in which the authors deal with multiple aspects of modeling, utilization and implementation of semantic methods for knowledge management and communication in the context of human centered computing. It is assumed that the modern human centered computing requires the intensive application of these methods as well as effective integration with multiple techniques of computational collective intelligence. The book is organized in four parts devoted to the presentation of utilization of knowledge processing in agent and multiagent systems, application of computational collective intelligence to knowledge management, models for collectives of intelligent agents, and models and environments tailored directly to human-centered computing. All chapters in the book discuss theoretical and practical issues related to various models and aspects of computational techniques for semantic methods, which are currently studied and developed in many academic and industry centers over the world. The editors hope that the book can be useful for graduate and PhD students of computer science, as well as for mature academics, researchers and practitioners interested in developing of modern methods for representation, processing and distribution of knowledge in the context of human centered computing and by means of computer based information systems. It is the hope of the editors that readers of this volume can find in all chosen chapters many inspiring ideas and influential practical examples, as well as use them in their current and future work.

A guide to the features and functions of the Nokia smartphone.

This book constitutes the refereed proceedings of the 7th International Conference on Active Media Technology, AMT 2011, held in Lanzhou, China, in September 2011. The 30 revised full papers and 6 keynote talks were carefully reviewed and selected for inclusion in the book. They are grouped in topical sections on data mining and pattern analysis in active media; active human-Web interaction and social media; active Web intelligence applications; active multi-agent and network systems; as well as technology intelligence.

This book constitutes the refereed proceedings of the 16th International Conference on Mobile Web and Intelligent Information Systems, MobiWIS 2019, held in Istanbul, Turkey, in August 2019. The 23 full papers presented together with 3 short papers were carefully reviewed and selected from 74 submissions. The papers of the MobiWIS 2019 deal with areas such as: mobile apps and services; web and mobile applications; security and privacy; wireless networks and cloud computing; intelligent mobile applications; and mobile web and practical applications.

OUR CULTURE HAS BECOME OBSESSED WITH HUSTLING. As we struggle to keep up in a knowledge economy that never sleeps, we arm ourselves with life hacks, to-do lists, and an inbox-zero mentality, grasping at anything that will help us work faster, push harder, and produce more. There's just one problem: most of these solutions are making things worse. Creativity isn't produced on an assembly line, and endless hustle is ruining our mental and physical health while subtracting from our creative performance. Productivity and Creativity are not compatible; we are stuck between them, and like the opposite poles of a magnet, they are tearing us apart. When we're told to sleep more, meditate, and slow down, we nod our heads in agreement, yet seem incapable of applying this advice in our own lives. Why do we act against our creative best interests? WE HAVE FORGOTTEN HOW TO FLOAT. The answer lies in our history, culture, and biology. Instead of focusing on how we work, we must understand why we work--why we believe that what we do determines who we are. Hustle and Float explores how our work culture creates contradictions between what we think we want and what we actually need, and points the way to a more humane, more sustainable, and, yes, more creative, way of working and living.

On the 75th anniversary of the atomic bombings of Hiroshima and Nagasaki comes this heart-pounding account of the war-room drama inside the cabinets of the United States and Japan that led to Armageddon on August 6, 1945. Here are the secret strategy sessions, fierce debates, looming assassinations, and planned invasions that resulted in history's first use of nuclear weapons in combat, and the ensuing chaotic days as the Japanese government struggled to respond to the reality of nuclear war. During the closing months of World War II, as America's strategic bombing campaign incinerated Japan's cities, two military giants locked in a death embrace of cultural differences and diplomatic intransigence. The leaders of the United States called for the "unconditional surrender" of the Japanese Empire while developing history's deadliest weapon and weighing an invasion, Downfall, that would have dwarfed D-Day. Their enemy responded with a last-ditch plan termed Ketsu-Go, which called for the suicidal resistance of every able-bodied man and woman in "The Decisive Battle" for the homeland. But had Emperor Hirohito's generals miscalculated how far the Americans had come in developing the atomic bomb? How close did President Harry Truman come to ordering the invasion of Japan? Within the Japanese Supreme Council at the Direction of War, a.k.a. "The Big Six," Foreign Minister Shigenori T?g? risked assassination in his crusade to convince his dysfunctional government, dominated by militarist fanatics, to save his country from annihilation. Despite Allied warnings of Japan's "prompt and utter destruction" and that the Allies would "brook no delay," the Big Six remained defiant. They refused to surrender even after the atomic bombings of Hiroshima and Nagasaki. How did Japanese leaders come to this impasse? The answers lie in this nearly day-by-day account of the struggle to end the most destructive conflict in history.

The Accidental Billionaires meets the music streaming business in Press Play, a behind-the-scenes exposé of how Swedish college drop-out Daniel Ek and his financial partner Martin Lorentzon took on the giants of Silicon Valley and the music industry, betting everything on the power of an idea to build the world's largest online source of song On a San Francisco summer's eve in 2011, after more than a year of delays, Daniel Ek--the whiz kid CEO of Spotify--celebrated the hard-earned US launch of his company. Only fifteen minutes away lay the modest brick house belonging to Steve Jobs, who had worked hard to stop this moment from ever happening. The tech war between the Apple iPhone and Android had raged, and Jobs saw downloaded music, kept within his software, as the key weapon in his holy war against Google. But Spotify had redrawn the battle lines. With humble origins as a Swedish start-up, Ek's platform had catapulted to the top of the music streaming world, using the threat of piracy and illegal downloading to get the notoriously hard-lined music labels to sign with him. But if Ek thought that the fight was won that summer's night, he would soon learn otherwise. Investigative tech journalists Sven Carlsson and Jonas Leijonhufvud deliver an action-packed, revelatory true tale--based on hundreds of interviews and previously untapped sources--about the creation of company that has revolutionized how the world consumes sound.

Today, there is an increased demand for flexible information access requirements and rapid decision making. Do you think the old approach for collecting, assimilating, and collecting information can feel in the gap? No, it can cause limitations and obstacles that slow your ability to integrate the strategy and processes of a business. For you to meet up with the increase in demand and information requirement, you will need a flexible and integrated business intelligence solution that facilitates more informed and timely decision. Excel dashboard is the solution. Surprised? Don't be! An Excel dashboard is most of the time one pager that helps business owners or managers in tracking key KPIs or metrics and takes a decision based on it. IT contains views, tables, and charts that are backed by data . Excel dashboards have lots of benefits, some of which are: •You would have absolute visibility into your business •Exceptional time savings •Productivity will increase •Stress will be reduced •You will know which area of your business is performing poorly thereby working on it and increasing profit But do you think these benefits would just fall from the sky? No! Knowing the secrets of Excel dashboards is the key that opens the door to these benefits. Our top rated short book "Top secrets of excel dashboards: save your time with MS Excel" is incredible as it shows you the secrets of Excel dashboards that open the door to various benefits. This amazing product stands to offer you some advantages that are incomparable. Wow! Come with us and let's take a look at the benefits it offers. •The book is informative, giving you a great knowledge of Excel Dashboards •It offers precise, short, and self-explanatory top secrets of Excel Dashboards. Ehw! You will not stop until you read to the end. •It offers a great navigation index that you can use as reference guide •Top secrets provided will save your time, increase your profit, and give you total visibility into your business and so much more. This is no joke; you don't need to spend all the money on you before getting this book. It is affordable and suitable for all budgets. Purchasing our product could save about US\$1000 which is a lot of money that can take care of other basic needs. No doubt, the result you will get from this book is worth more than its price. Believe it; we cannot deny the fact that this incredible and powerful book might not contain the entire information about Excel Dashboards. Our main goal is to make sure you have a great knowledge in Excel Dashboard so has to move your business forward. The more you delay purchasing and making use of the information in this book the more you waste your precious time and the more you remain in the dark about the progress of your business. Note: Each day you delay buying this product the more you waste your precious time and the more you remain in the dark about the progress of your business. Purchase this product while you can!
