Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, A Manual for Writers of Research Papers, Theses, and Dissertations has been fully revised to meet the needs of today ' s writers and researchers. The Wars of the Roses tore England asunder. Over the course of thirty years, four kings lost their thrones, countless men lost their lives on the battlefield or their heads on the block, and others found themselves suddenly flush with gold. Yet until now, little has been written about the ordinary people who lived through this extraordinary time. Blood and Roses is a gripping, intimate story of one determined family conducting everyday business against

Drawing on a rare trove of letters discovered in a tumbledown stately home, historian Helen Castor reconstructs the turbulent affairs of the Pastons through three generations of births, marriages, and deaths as they single-mindedly worked their way up from farmers to landed gentry. It is a remarkable chronicle of devotion, ambition, and survival that brings a remote and hazy era to vibrant new life.

Can you control who sees all that personal information about you? Can email be truly confidential, when nothing seems to be private? Shouldn't the Internet be censored the way radio and TV are? Is it really a federal crime to download music? When you use Google or Yahoo! to search for something, how do they decide which sites to show you? Do you still have free speech in the digital world? What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields – including

With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership ' s five capabilities and the research that underpins it. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In *Centered Leadership*, Barsh and Lavoie
