A senseless slaughter leads Lucas Davenport down a twisted path in this thriller from the #1 New York Times bestselling author. Lucas Davenport has seen many terrible murder scenes. This is one of the worst. In the Minnesota town of Wayzata, an entire family has been killed—husband, wife, two kids, dogs. On the wall, in blood: “Were coming.” No apostrophe. There’s something about the scene that tugs at Lucas’s cop instincts—it looks an awful lot like the kind of scorched-earth retribution he’s seen from Mexican drug gangs. But this is a seriously upscale town, the husband ran a modest software company, the wife dabbled in local politics. None of it seems to fit. Until it does...

Investigating the discovery of two bodies in a house demolition, Lucas Davenport identifies the victims as two girls who disappeared in 1985, a cold case that overshadowed the early years of his career. By the best-selling author of *Storm Prey*. Reprint.

Murder, scandal, political espionage and an extremely dangerous woman. Lucas Davenport's going to be lucky to get out of this one alive. A Minnesota political fixer has hit the jackpot - or so he thinks. Hired to take down the incumbent U.S. senator with a vicious smear, to open the way for an ambitious, take-no-prisoners heiress who sees the Senate as merely a stepping-stone, he decides his payoff should be larger. The blackmail demand should yield some pretty large numbers, he thinks. Instead, he gets only a small one - 9 millimeters, to be exact. In the heart. Davenport is investigating the smear when the trail leads to the man's disappearance, then - very troublingly - to the Minneapolis police department, then - most troublingly of all - to a woman who could give Machiavelli lessons. She has very definite ideas about the way the world should work, and the money, ruthlessness and sheer will to make it happen. No matter who gets in the way.

When a simple robbery turns deadly, the thieves close in on the only witness: Lucas Davenport's wife...

The extraordinary new Lucas Davenport thriller from the number one New York Times bestselling author and Pulitzer Prize winner John Sandford. 'He knows where the bodies are buried.' A familiar expression, often said with a laugh. But in Lucas Davenport's line of work, it's sometimes all too true.... When a county deputy is called out to an abandoned farmhouse in the cornfields of Minnesota by a couple of terrified teenagers, he finds that a body has been stuffed down a cistern. And then another, and another. By the time Lucas Davenport is called in, the police are up to fifteen bodies, and counting. And when Lucas begins to investigate, he makes some disturbing discoveries of his own. The victims have been killed over a great many years, one every summer, regular as clockwork. How could this have happened without anybody noticing? Because one thing was for sure: The killer has to live close by. He is probably even someone they see every day...

A terrifying Lucas Davenport thriller from #1 New York Times bestselling author and Pulitzer Prize winner John Sandford. They call them Travelers. They move from city to city, panhandling, committing no crimes—they just like to stay on the move. And now somebody is killing them. Lucas

Letty tells Lucas she's going to get her, and, though he suspects Letty's getting played, he volunteers to go with her. When he hears the woman's story, though, he begins to think there's something in it. Little does he know. In the days to come, he will embark upon an odyssey through a subculture unlike any he has ever seen, a trip that will not only put the two of them in danger—but just may change the course of his life.

THE NEW YORK TIMES BESTSELLER Lucas Davenport's first case as a U.S. Marshal sends him into uncharted territory in the thrilling new novel in the #1 New York Times-bestselling series. The man was smart and he didn't mind killing people. Welcome to the big leagues, Davenport. Thanks to some very influential people whose lives he saved, Lucas is no longer working for the Minnesota Bureau of Criminal Apprehension, but for the U.S. Marshals Service, and with unusual scope. He gets to pick his own cases, whatever they are, wherever they lead him. And where they've led him this time is into real trouble. A Biloxi, Mississippi, drug-cartel counting house gets robbed, and suitcases full of cash disappear, leaving behind five bodies, including that of a six-year-old girl. Davenport takes the case, which quickly spirals out of control, as cartel assassins, including a torturer known as the "Queen of home-improvement tools" compete with Davenport to find the Dixie Hicks shooters who knocked over the counting house. Things get ugly real fast, and neither the cartel killers nor the holdup men give a damn about whose lives Davenport might have saved; to them, he's just another large target. Filled with his trademark razor-sharp plotting and some of the best characters in suspense fiction, *Golden Prey* is further reason why "Sandford has always been at the top of any list of great mystery writers" (*The Huffington Post*).
