Only the author of The Hunt for Red October could capture the reality of life aboard a nuclear submarine. Only a writer of Mr. Clancy's magnitude could obtain security clearance for information, diagrams, and photographs never before available to the public. Now, every civilian can enter this top secret world...the weapons, the procedures, the people themselves...the startling facts behind the fiction that made Tom Clancy a #1 bestselling author.

Exposes the inner workings of the nuclear submarine, the core of America's nuclear arsenal, using diagrams and photographs along with formerly top-secret information.

Offers a unique, inside view of the Marines, including their history, training, arms, equipment, and strategies

The author's "forgotten novel" about submarine warfare finds the United States at war and its underwater fleet carrying the burden of the conflict. Reprint.

Going behind the scenes of an armored cavalry regiment, an insider's view includes photographs, illustrations, and diagrams of tanks, helicopters, and artillery systems, interviews with high-ranking officers, and future roles the armored cavalry might play. Original.

Presents information about submarines, from providing a room-by-room tour of a typical vessel to analyzing the history of submarines during wars and on maneuvers.

Presents an insider's look at the planes, technology, and people involved in an Air Force combat wing, capturing the constant dangers faced daily by pilots.

A behind-the-scenes look at the elite branch of the military, made up of both Army and Air Force personnel, covers its people, technology, and mission

They are floating cities with crews of thousands. They are the linchpins of any military strategy, for they provide what has become the key to every battle fought since World War I: air superiority. The mere presence of a U.S. naval carrier in a region is an automatic display of strength that sends a message no potential enemy can ignore. Now, Tom Clancy welcomes you aboard for a detailed look at how these floating behemoths function. With his trademark style and eye for detail, Clancy brings you naval combat strategy like no one else can.Carrier includes: * Takeoffs and landings: flying into the danger zone * The aircraft onboard: their range, their power, their weaponry * The role of the carrier in modern naval warfare * Exclusive photographs, illustrations and diagrams Plus: An interview with the U.S. Navy's Chief of Naval Operations, Admiral Jay Johnson
