In the 2012-2013 school year, Bradley County students met 9 out of the 11achievement targets for grades 3-12 that were established by the Tennessee ... III, Algebra I, Algebra II, seventh grade ...

Learn about the wide variety of bug dishes that are cooked--and eaten--by people from different cultures all around the globe.

Science, engineering, and technology permeate nearly every facet of modern life and hold the key to solving many of humanity's most pressing current and future challenges. The United States' position in the global economy is declining, in part because U.S. workers lack fundamental knowledge in these fields. To address the critical issues of U.S. competitiveness and to better prepare the workforce, A Framework for K-12 Science Education proposes a new approach to K-12 science education that will capture students' interest and provide them with the necessary foundational knowledge in the field. A Framework for K-12 Science Education outlines a broad set of expectations for students in science and engineering in grades K-12. These expectations will inform the development of new standards for K-12 science education and, subsequently, revisions to curriculum, instruction, assessment, and professional development for educators. This book identifies three dimensions that convey the core ideas and practices around which science and engineering education in these grades should be built. These three dimensions are: crosscutting concepts that unify the study of science through their common application across science and engineering; scientific and engineering practices; and disciplinary core ideas in the physical sciences, life sciences, and earth and space sciences and for engineering, technology, and the applications of science. The overarching goal is for all high school graduates to have sufficient knowledge of science and engineering to engage in public discussions on science-related issues, be careful consumers of scientific and technical information, and enter the careers of their choice. A Framework for K-12 Science Education is the first step in a process that can inform state-level decisions and achieve a research-grounded basis for improving science instruction and learning across the country. The book will guide standards developers, teachers, curriculum designers, assessment developers, state and district science administrators, and educators who teach science in informal environments.

"A Visitor for Bear has the feel of a classic, and it's so cozy no parent could object to reading it aloud every night." - The New York Times Book Review (starred review) Features an audio read-along! Bear is quite sure he doesn't like visitors. He even has a sign. So when a mouse taps on his door one day, Bear tells him to leave. But the mouse - who keeps popping up in the most unexpected places - just won't go away! Cheery persistence wears down the curmudgeonly Bear in a wry comedy of manners that ends in a most unlikely friendship.

Getting Ready for the 4th Grade Assessment Test: Help Improve Your Child's Math and English Skills - Many parents are expressing a demand for books that will help their children succeed and excel on the fourth grade assessment tests in math and English -especially in areas where children have limited access to computers. This book will help students practice basic math concepts, i.e., number sense and applications as well as more difficult math, such as patterns, functions, and algebra. English skills will include practice in reading comprehension, writing, and vocabulary. Rubrics are included for self-evaluation.

High-stakes standardized testing has a long history of exclusion, oppression, power, and control with deep roots in the landscape of American education. In this text, the events and circumstances that have forged the way of high-stakes testing are presented in a straightforward and accessible manner.

See America with 50 of Our Finest, Funniest, and Foremost Writers Anthony Bourdain chases the fumigation truck in Bergen County, New Jersey Dave Eggers tells it straight: Illinois is Number 1 Louise Erdrich loses her bikini top in North Dakota Jonathan Franzen gets waylaid by New York's publicist...and personal attorney...and historian...and geologist John Hodgman explains why there is no such thing as a "Massachusettsean" Edward P. Jones makes the case: D.C. should be a state! Jhumpa Lahiri declares her reckless love for the Rhode Island coast Rick Moody explores the dark heart of Connecticut's Merritt Parkway, exit by exit Ann Patchett makes a pilgrimage to the Civil War site at Shiloh, Tennessee William T. Vollmann visits a San Francisco S&M club and Many More!
