In The Accidental Superpower, international strategist Peter Zeihan examines how the hard rules of geography are eroding the American commitment to free trade; how much of the planet is aging into a mass retirement that will enervate markets and capital supplies; and how, against all odds, it is the ever-ravenous American economy that - alone among the developed nations - is rapidly approaching energy independence. Combined, these factors are doing

"In *THE ACCIDENTAL SUPERPOWER*, Peter Zeihan has explored a contemporary version of Napoleon's dictum that the power of countries derives from their geography. He brings a refreshingly novel and thought-provoking approach to understanding the rise of a U.S.-led global order, current threats, and why the U.S. will probably ride out the future better than others."--

The bulk of "The Accidental Superpower" peers into the future as Mr. Zeihan, a former analyst at the geopolitical security firm Stratfor, tries to imagine where the world, and particularly America,...

~~Book Review: "The Accidental Superpower" by Peter Zeihan - WSJ~~

The Accidental Superpower Fascinating book. A couple of thoughts though. The author does an amazing job analyzing all the geopolitical trends in the world today. They are thoroughly flushed out and compelling to think about. However, I think he puts too much emphasis on how much of the future is determined.
