The Cold War: A Very Short Introduction: 87 (Very Short ...

The Cold War was solidified by 1947-48, when U.S. aid had brought certain Western countries under American influence and the Soviets had established openly communist regimes. Nevertheless, there was very little use of weapons on battlefields during the Cold War. It was waged mainly on political, economic, and propaganda fronts and lasted until 1991.

The massive disorder and economic ruin following the Second World War inevitably predetermined the scope and intensity of the Cold War. But why did it last so long? And what impact did it have on the United States, the Soviet Union, Europe, and the Third World?

The Cold War: A Very Short Introduction - Robert J ...

offers a general account of the Cold War, spanning the period from 1945 to the final denouement of the Soviet-American confrontation in 1990. It elucidates key events, trends, and themes, drawing in so doing from some of the most important recent scholarship on the Cold War. I have sought, above all, to provide readers with an essential foundation for

The Cold War: A Very Short Introduction

The Cold War was a period of geopolitical tension between the Soviet Union and the United States and their respective allies, the Eastern Bloc and the Western Bloc, after World War II. Historians do not fully agree on the dates, but the period is generally considered to span the 1947 Truman Doctrine to the 1991 dissolution of the Soviet Union.

The Cold War: A Very Short Introduction argues that the massive disorder and economic ruin following the Second World War inevitably predetermined the scope and intensity of the Cold War. But why did it last so long? And what impact did it have on the United States, the Soviet Union, Europe, and the Third World?

Cold War: A Very Short Introduction - Very Short Introductions

'Origins of the Cold War in Europe, 1945-50' focuses on the fragile alliance formed between the USA and USSR during the war, and its inevitable breakdown in the following years. Both nations were able to subdue their antipathy during World War II in the face of a common adversary, but even this limited cooperation evaporated after the war.

2. The origins of the Cold War in Europe, 1945-50 - Very ...

This documentary gives quite an overview of what has actually happened in the 40 years before 1987 regarding the CIA and the cold war - including Iran, Guatemala, Cuba, Nicaragua, Chile and Viet Nam and features such people as Ralph McGeehee and Phil Retinger (both former CIA agents), Rear Admiral Gene La Rocque (Ret. U.S.N.), Theodore Bissell (active in the CIA at the time), Sen. Frank ...

The massive disorder and economic ruin following the Second World War inevitably predetermined the scope and intensity of the Cold War. But why did it last so long? And what impact did it have on the United States, the Soviet Union, Europe, and the Third World? Finally, how did it affect the broader history of the second half of the twentieth century - what were the human and financial costs? This Very Short

Introduction provides a clear and stimulating interpretive overview of the Cold War, one that will both invite debate and encourage deeper investigation. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created.

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe
"Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times
The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant

Download Ebook The Cold War A Very Short Introduction Robert J McMahon

summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

The Cold War between the United States and the Soviet Union lasted from the end of World War II until the end of the 1980s. Over the course of five decades, they never came to blows directly. Rather, these two world superpowers competed in other arenas that would touch almost every corner of the globe. Inside you will read about... ? What Was the Cold War? ? The Origins of the Cold War ? World War II and the Beginning of the Cold War ? The Cold War in the 1950s ? The Cold War in the 1960s ? The Cold War in the 1970s ? The Cold War in the 1980s and the End of the Cold War Both interfered in the affairs of other countries to win allies for their opposing ideologies. In the process, governments were destabilized, ideas silenced, revolutions broke out, and culture was controlled. This overview of the Cold War provides the story of how these two countries came to oppose one another, and the impact it had on them and others around the world.

From the espionage files, an American soldier is nearly recruited in a downtown bar to be a spy and a First Sergeant is lured by sex to be an unknowing participant in spying. Behind-the-lines images are historic and intriguing. See photographs of a French officer and a Soviet officer relaxing in the East German woods in a temporary unofficial peace; 'James Bond' type cars with their light tricks and their ability to leave their Stasi shadows 'wheel spinning' in the snow will amaze readers. A Russian translator for the presidential hotline recounts a story about having to lock his doors in the Pentagon, separating himself and his sergeant from the Pentagon Generals when a message comes in from the Soviets. When he called the White House to relay the message to the President and stood by for a possible reply to the Soviet Chairman, he stopped working for the Generals and started working solely for the President.

On 26 December, 1991, the hammer-and-sickle flag was lowered over the Kremlin for the last time. Yet, just six years earlier, when Mikhail Gorbachev became general secretary of the Communist Party of the Soviet Union and chose Eduard Shevardnadze as his foreign minister, the Cold War seemed like a permanent fixture in world politics. Until its denouement, no Western or Soviet politician foresaw that the standoff between the two superpowers -- after decades of struggle over every aspect of security, politics, economics, and ideas -- would end within the lifetime of the current generation. Nor was it at all obvious that that the Soviet political leadership would undertake a huge internal reform of the USSR, or that the threat of a nuclear Armageddon could or would be peacefully wound down. Drawing on pioneering archival research, Robert Service's gripping investigation of the final years of the Cold War

Download Ebook The Cold War A Very Short Introduction Robert J McMahon

pinpoints the extraordinary relationships between Ronald Reagan, Gorbachev, George Shultz, and Shevardnadze, who found ways to cooperate during times of exceptional change around the world. A story of American pressure and Soviet long-term decline and overstretch, *The End of the Cold War: 1985-1991* shows how a small but skillful group of statesmen grew determined to end the Cold War on their watch and transformed the global political landscape irreversibly.

NEW YORK TIMES BESTSELLER From the diplomat Putin wants to interrogate—and has banned from Russia—a revelatory, inside account of U.S.-Russia relations from 1989 to the present “A fascinating and timely account of the current crisis in the relationship between Russia and the United States.” —New York Times Book Review Putin would need an enemy, and he turned to the most reliable one in Russia’s recent history: the United States and then, by extension, me. In 2008, when Michael McFaul was asked to leave his perch at Stanford and join an unlikely presidential campaign, he had no idea that he would find himself at the beating heart of one of today’s most contentious and consequential international relationships. As President Barack Obama’s adviser on Russian affairs, McFaul helped craft the United States’ policy known as “reset” that fostered new and unprecedented collaboration between the two countries. And then, as U.S. ambassador to Russia from 2012 to 2014, he had a front-row seat when this fleeting, hopeful moment crumbled with Vladimir Putin’s return to the presidency. This riveting inside account combines history and memoir to tell the full story of U.S.-Russia relations from the fall of the Soviet Union to the new rise of the hostile, paranoid Russian president. From the first days of McFaul’s ambassadorship, the Kremlin actively sought to discredit and undermine him, hassling him with tactics that included dispatching protesters to his front gates, slandering him on state media, and tightly surveilling him, his staff, and his family. *From Cold War to Hot Peace* is an essential account of the most consequential global confrontation of our time.

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction “[A] brilliant book...by far the best study yet” (Paul Kennedy, *The Wall Street Journal*) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain’s empire collapsing and Stalin’s on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil’s “thoroughly researched and well-written account” (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for

Download Ebook The Cold War A Very Short Introduction Robert J McMahon

today. Focusing on the critical years 1947 to 1949, Benn Steil's gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin's determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil's account will forever change how we see the Marshall Plan. "Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War" (The New York Times Book Review), The Marshall Plan is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it "is a gripping, complex, and critically important story that is told with clarity and precision" (The Christian Science Monitor).

This collection explores the complex interrelationships between the Soviet-American struggle for global preeminence and the rise of the Third World. Featuring original essays by twelve leading scholars, it examines the influence of Third World actors on the course of the Cold War.
