Universal Geneva presents the calendar watch, with or without moon phases, with a small second at 9 o'clock, the date at 3 o'clock, the day at 12 o'clock, and the month and moon phases at 6 o'clock. Centenary of the brand: launch of the Janus, inspired by the Cabriolet.

Men - Universal Genève S.A.

The Universal Geneve Tri-Compax was first released at the 1944 Basel Watch Fair to commemorate the brand's fiftieth anniversary. A common misconception is that the "Tri" refers to the three subdials when instead it refers to the three complications: moonphase, calendar and chronograph.

Today Rolex Passion is the most updated edition on Rolex wristwatches: a book that illustrates and describes all vintage and modern models, including timepieces introduced at Baselworld 2017. Rolex Passion also represents the first "social book" by Mondani, tradition combined with the future: the code QR on the cover of the book takes you directly to our page on Facebook ("Rolex Passion by Mondani"), which has more than half a million followers and is updated with images and information about different watches every day. On this page you can also find watches that are on sale at the most reliable and known retailers worldwide. Another important new element of this book is the large section entirely dedicated to the Rolex watches of our Clients and Followers from all over the world, with unpublished pictures, which arrive directly from the network profiles of our Clients and Followers. A unique opportunity to see wonderful timepieces in constantly different and original contexts. Furthermore, "Rolex Passion" is also the first book of the dealers, since it includes a large chapter on dealers, retailers and vendors worldwide, who are recommended to you by Mondani. This book is perfect for those who are approaching the world of Rolex watches. "Rolex Passion" takes the reader on a journey through the entire production of watches and illustrates the history and the main technical features of all the references. This volume should be present in the bookcase of our Clients, who already own other editions by Mondani, since it is a real novelty, which allows one to follow the most active and updated page about Rolex on Facebook. The preface of this book was written by Roman Sharf, a dealer of new and second wrist luxury watches in Philadelphia. He is esteemed throughout the world and has great experience in the watch market. ROLEX PASSION TOPICS: Rolex Passion describes on more than 350 pages the whole production of the Genevan Maison from the first models up to the present day. This book also illustrates important details, small differences, special features of bezels, dials and hands and a lot more. Rolex Passion is divided in categories in alphabetic order and represents a general guideline, which describes all the references, but also satisfies the demands of those who require more detailed information, for example: the customized Serpico y Laino dials, the chronographs, which were

produced only in very small numbers, the characteristics of the Paul Newman models, watches with tropical dials, the calibers, the timepiece, which was called "Padellone," the evolution and the range of dials of the Datejust and Day-Date, the Texano, the complications of the Sky-Dweller, the evolution of the diver's models from the James Bond up to the James Cameron, the Oysterflex, the ceramic bezel inserts (including those of the modern Daytona), etc. The last chapters describe all the models, which were presented at Baselworld, like for example the Sea-Dweller, ref. 126600 with red writing, the new Sky-Dweller in stainless steel with a blue dial, the Yacht-Master with a sapphire and diamond set bezel and a lot more. The chapter "Shots from the Web" is absolutely new. It illustrates photos of Rolex watches from all over the world: models, which are rare or common, modern or vintage, in good or less good condition, are presented on different and original backgrounds.

With this magnificent volume, watch expert and authority John Goldberger, author of "100 Superlative Rolex Watches," presents the most beautiful and remarkable watches ever fitted with steel cases by the Geneva-based watch company Patek Philippe. With the collaboration of the world's leading collectors and connoisseurs, the collection presented in this exclusive publication is the result of painstaking research, supplemented by professional photographs that show the most minute details and characteristics of the movement, case and dial of each timekeeper. With 187 superb examples, as well as over 900 color illustrations and 800 descriptive texts, this volume offers the watch collector and enthusiast invaluable information about the finest rare masterpieces of Patek Philippe's production, including recent research on referencenumbers, dials, movements, related calibers and each watch's year of production. Organized in 12 chapters, this tome covers a century of the company's quintessential spirit and style.

PRESENTATION: HOW TO KNOW EVERYTHING ABOUT THE ROLEX GMT-MASTER The GMT-Master was created to meet the needs of Pan American Airways to supply its pilots with a wristwatch able to indicate the time back home and the time in their arrival destination simultaneously. It was necessary to give the pilots a "technical" wristwatch, which indicated simultaneously the two different times. It is from this point that the request arose from Pan Am to Rolex, to create a new watch for modern age aviators: a watch with two time zones. The name GMT-Master was chosen... Are you a watch collector and you need information about the Rolex GMT-Master? Are you a watch dealer and you want to know exactly what you are buying and selling? Do you want to know the real value of your GMT-Master? For all this and much much more, this book is perfect for you. You will also know the current value of every GMT-Master.

TOPICS With high quality images, technical details and updated prices, this book shows and describes every GMT-Master and GMT-Master II reference. For each watch this guide explains every characteristic:
