Cindy Weber's International Relations Theory is an extraordinarily au courant text in terms of both its theoretical attunement and its attention to genre. While many IR texts fail to heed the pedagogical value of incorporating innovations in visual technologies and culture, Weber's does so with nuanced presentations and interpretations, which she articulates skillfully with the text's theoretical treatments.

international relations theory in a way that allows students a clearer idea of how the theories work and the myths that are associated with them. Cynthia Weber is Professor of International Studies at the University of Lancaster.

~~International Relations Theory: A Critical Introduction ...~~

Cynthia Weber shows us the crooked, messy, anti-normative - and indeed, queer - underpinnings of the field of International Relations in ways never previously imagined. Queer International Relations places ideas about sovereignty, international norms, development, and sexuality onto the agenda unlike every before.

~~International Relations Theory by Cynthia Weber | Waterstones~~

International Relations Theory: A Critical Introduction is an innovative new textbook, which introduces students to the main theories in International Relations. It also deconstructs each theory allowing students not only to understand them, but also to critically engage with the assumptions and myths that underpin them. It does this by using five familiar films as tools for first understanding each theory and then for understanding the myths that make them so persuasive for some people.
